DESIGNED TO AMAZE

THE POWER OF PURE AUDIO

The RIVA S audio design utilizes high performance acoustic components to deliver unparalleled audio quality in a mobile package.

- 30 watts of power
- Seven unique ADX™ drivers that reproduce more of the musical spectrum than any comparable product
- Proprietary 3-channel amplifier with advanced digital signal processing to maximize audio quality

ROBUST BATTERY LIFE

Imagine all of the audio you can fill 13+ hours* with!

- Note: These hours are approximate based on averages as tested in our laboratory.

PHONO MODE

Adds up to 9dB of gain to the speaker's output to account for the inherently weaker signal coming from a turntable. This mode also bypasses the automatic gain control in the DSP for the auxiliary input, providing a clean, uncompressed signal to the amplifier. No other Bluetooth speaker has the capability to play vinyl like this.

PARTY MODE

Pair two devices to one RIVA S for multi-user control.

PATENTED WORLD-CLASS DESIGN*

- Six capacitive touch control buttons
- Proximity sensing power on wake
- Smart LED lighting indicators
- IPX4 weather resistant
- Energy Star rated
- Available colors:
 - Black with Titanium
 - White with Silver
 - White with Gold

TRUEWIRELESS™

Take your sound to the next level by connecting two RIVA S speakers wirelessly to create right and left channel stereo.

INPUTS

RIVA S is more than just a portable Bluetooth® speaker. We provide more inputs for you to enjoy more content.

- 3.5 mm Analog connector
- Micro-USB Type B connector for music playback and software updates
- USB Type A Charge Out
- DC Power connector
- Illuminated Battery Status
- Battery On/Off switch to conserve battery life when not in use.

APT-X® BLUETOOTH®

Retain the full integrity of original audio and impressive dynamic range with CSR aptX® and Bluetooth®.

TRILLIUM™

The RIVA Difference! Trillium™ is ADX's™ proprietary 3-channel audio technology that enlarges audio image while allowing the power of the audio to be reproduced. What does this mean for you? You get truly immersive sound with deep, powerful bass.

TRILLIUM™ SURROUND

Multi-dimensional surround sound designed to enhance the audio-visual experience of movies, video games, TV and more.

CRYSTAL CLEAR SPEAKERPHONE

- Dual-mic speakerphone with noise and echo processing technology to improve audio quality during conference calls.
- RIVA S' automatic teleconferencing EQ setting maximizes the mid range to deliver crystal clear voice.

RIVA AUDIO APP

Convenient remote control app in eight languages to operate the RIVA S directly from mobile devices and personalize your audio streaming experience. The app allows you to personalize the name of your RIVA S, change the app background color and much more. Free downloads available for iOS and Android™.
